

BLOGGING NEWS! OCTOBER 2012

Quadblogging

This term, we are continuing 'Quadblogging' although our quad is now a triad! Each week, it is one school's turn to be the focus blog and the other schools visit. We are enjoying sharing our learning with the global community and have been amazed to find what we have in common. The links for our quadblogging friends are here

Oct 16 Silicon Spies
October 16, 2012 | Uncategorized | Leave a Comment

This week we are learning about electricity in our unit on energy. We have been playing a very challenging game on the computer called **Silicon Spies**. This is what it looks like ...

Before you can go on the missions, you have to practise connecting circuits and learn some of the symbols used in designing circuits. If you would like to try the game, here is the link:
<http://www.engineeringinteract.org/resources/siliconspies/siliconspieslink.htm>

What are some of the things we could not do without electricity?

Oct 14 Welcome Back to our Quadblogging buddies!
October 14, 2012 | Uncategorized | 38 Comments

Welcome back to our friends from Stickney Primary and Bishop's Waltham Junior.

In Maths, we have been working on a unit on Data. Last week, we each surveyed everyone in our class to find out

If you check in with our blog often, you will find out lots about what is happening in our classroom. Recently, we have posted about Data, Energy, the CSIRO incursion, and Fashion Week in art, - and that's just since the start of term! You can have great conversations about what is happening at school with the 'heads up' from our blog. No more answers of "nothing" to the question of what did you do at school today!!

Look at all our visitors! We have had visitors from all over the world sharing in our learning. We recently asked people to let us know their favourite icecream flavours for our Maths unit on Data and we heard from people as far away as Shetland Isles! You can contribute to our learning too by visiting our blog regularly and posting comments, answering questions in our posts, or even adding something new that you may know about a topic. One of our visitors has given us lots of information about the ancient art of weaving and chocolate!

Please come and visit!
